Collision with pickup injures Carthage men

By Roel Cherrier

A Wednesday collision between a cement transport truck and a light-weight pickup truck put two Carthage men in the hospital Tuesday.

Donald Wayne Andrews, 30, and Newton Lippold (Golden) 30, were taken to Panola General Hospital by Panola County Ambulance Service EMTs after sustaining injuries when their vehicles collided at the intersection of U.S. 79 (Disreetown Highway) and Loop 59.

Golden remains in Panola General in serious condition while Andrews was treated and released Tuesday afternoon.

In an attempt to avoid contact with the cement Tipton truck driven by Golden, Andrews' cement transport truck overturned onto its side. With the light-weight, pickup demolished, the vehicle totally removing the rear panel and bed assembly from the truck's framework.

Golden was cited for failure to yield right of way to a vehicle.

At 11:14 a.m. the cement transport, owned by Carthage Concrete Products Company, 461 Phifer Street, was west bound in the 400 block of E. Oakline (U.S. 79) while the Golden vehicle was attempting to enter onto E. Oakline and travel west.

Exitng off of the Loop 59 access ramp, the Golden vehicle fell to yield to the incoming cement transport and a collision occurred at the Loop-U.S. 79 intersection.

Golden was said to have received incapacitating injuries while Andrews sustained evidence of injuries which were not ruled as incapacitating.

May starts off wet

By Earl Cherrier

Whatever the Carthage and Panola County area words may have said about the season, the weather Monday was a promise of things to come. Rain showers were the order of the day and many more were expected to follow.

The old saying "April showers bring May flowers." might hold true but not this year. For April saw 10.99 inches recorded. The city's snowfall amounted to 10.14 inches for the month.

And 1983 wasn't much better with just 1.41 inches of precipitation recorded for the month which is supposed to be the wettest month for the month just past.

April, however, has always been a bit unpredictable with one year bringing a drought and the next year

In 1982 the area received 7.32 inches but that figure dropped the next year to 3.46 inches. Then 1982 measurements jumped up to 9.85 inches before the return of wet summer.

Where were 6,063 voters?

Editorial:

The 6,063 voters who showed up at the polls Tuesday to cast their ballots on the primary election ballot were a healthy number. It was a day of civic responsibility and a day of political participation. It is a day to be proud of. And it is a day to look forward to.
