DIVISION OF eLEARNING

The Office of eLearning includes the Distance Learning Department, Instructional Technology, and the College website. To accommodate varied student schedules and learning styles, Panola College provides several types of distance learning courses including Interactive Television (ITV), online, hybrid, and web-enhanced courses.

**About the Division of eLearning**
The Division of eLearning provides instruction and support for faculty and students through the departments of Distance Education and Instructional Technology, and through the Panola College website.

**Distance Education**
To accommodate varied student schedules and learning styles, distance education courses are presented in a variety of course formats, including Interactive Television (ITV), online, hybrid, and web-enhanced courses.

Panola College offers these degrees online:
- AAS - Office Professional
- AAS - Office Professional (Medical Option)
- AAS - Associate Degree Nursing
- AAS - General Business
- AAS - Computer Information Technology
- AAS - Health Information Technology
- AAS - Medical Laboratory Technician
- AAT - Teacher Education
- AS - Core Curriculum

In addition, several certificate programs are offered online.

Online courses offer students flexibility in coursework that can be accessed from home, work or other locations, including in open computer labs available at Panola College. All instruction in online classes is provided through the Canvas Learning Management System (LMS), and testing services are available at Panola College facilities in Carthage, Marshall and Center, Texas. Hybrid courses combine elements of both face-to-face and online formats, and many instructors use the Canvas LMS to provide resources to enhance traditional face-to-face classes.

**Interactive Television**
(ITV) courses are broadcast to and from Panola College in Carthage, the Shelby Regional Training Center in Center, and the Marshall College Center in Marshall, Texas. In addition, ITV classes are broadcast to and from area Independent School Districts. Through partnerships, collaborative and consortia agreements with other colleges and universities, Panola College can offer a greater selection of courses via ITV and online. Panola College participates in the Virtual College of Texas and the Northeast Texas Network Consortium of colleges and universities.
Virtual College of Texas
The Virtual College of Texas (VCT) is a collaboration of community colleges instituted to enhance access to higher education by sharing distance education resources among colleges. These resources include instruction, student and administrative services, and technology. VCT serves students who need distance education courses that are not available at their home institutions at the point that they need them. Panola College provides courses for students across the state through VCT, and Panola College students benefit from the service by having access to courses from other institutions as well.

Instructional Technology
Making the transition between the traditional classroom and the Interactive Television or online classroom is made easier with specialized training facilitated by the eLearning Division’s Coordinator of Educational Technology. Instructors are trained and supported with individual and small group instruction and online resources. Professional Development opportunities are offered throughout the academic year and training sessions are based on the needs and interests of faculty and staff members.

eLearning support for students is provided face-to-face, by telephone, and online. Orientation for online learning is provided on campus and through the Canvas LMS, and technical support is available upon request. Students wishing to know how they may fare in online courses can access the SmarterMeasure assessment, which assesses reading comprehension, computer skills, learning styles, and much more. A link to the SmarterMeasure assessment is located on the Panola College website.

Panola College Website
The Panola College website at http://www.panola.edu is maintained through the Division of eLearning. The website provides access to all Panola College departments and resources.

Mission of the Division of eLearning
The mission of the Division of eLearning is to provide training and resources to support faculty and students in designing and participating in all types of instruction at Panola College, and to provide equitable access to College courses and resources through instructional technology and the Panola College website.

Admissions, Counseling, Testing, Registration
Admissions, counseling, and registration for Panola College eLearning courses is the same as for other courses. Students should contact the Student Success Center for more information. For online courses, some instructors require face-to-face orientation, while others provide orientation online. A schedule of courses is available online at http://www.panola.edu.

Testing services for online courses are available at Panola College facilities in Carthage, Marshall and Center, Texas. Testing information can be found on the eLearning page of the Panola College website.

Dual Credit Orientation
Orientation for students enrolled for dual credit is the same as for other students, and is available through the Panola College Student Success Center and the eLearning face-to-face and online orientation sessions.

Continuing Education
The eLearning staff works with the Division of Workforce and Continuing Education to provide online instruction and resources in various areas of continuing education. Offerings include courses for Continuing Education Unit credits and classes for personal enrichment.
Professional Development

Professional Development opportunities are offered throughout the academic year through the Division of eLearning. Training ranges from the use of instructional technology to pedagogical topics, focusing on needs and interests identified through faculty surveys. Sessions are offered face-to-face or online in the Canvas Learning Management System and through synchronous collaboration tools, and are taught by eLearning staff members and faculty members with expertise in selected subjects. Guest lecturers are also invited to present instruction in relevant topics.

Faculty/Staff Resources Course

The Faculty Resources course in the Canvas LMS is available to all faculty members and provides resources related to instruction, technology, and Panola College policies and procedures. Faculty and staff members are encouraged to access the course for information and tools that can enhance instruction and productivity.

eLearning Handbook

Through the *Distance Education Handbook*, the eLearning Division provides information and resources for faculty members who deliver instruction using online tools. The *Handbook* is available on the eLearning webpage.

Adjunct Orientation

Face-to-face Adjunct Orientation is provided at the beginning of each semester for adjunct instructors at Panola College. Instructors receive information about College policies and procedures and about resources available for instructional and technical support.

Adjunct Academy

Instructional and technical training for adjunct instructors is available in the Adjunct Academy course offered by the eLearning Division through the Canvas Learning Management System. Adjunct instructors are required to complete the training prior to teaching classes at Panola College. In addition, adjunct instructors who teach online must complete the Certification in Instructional Technology training, offered in both face-to-face and online sessions.
