

Course Syllabus

Arts 2346 - Ceramics I

Revision Date: 8/22/2017

Catalog Description: An introduction to ceramic processes and their basic materials and techniques.

Prerequisites: none

Semester Credit Hours: 3

Lecture Hours per Week: 3

Lab Hours per Week: 3

Extended hours: --Additional study is required outside posted class times.

Contact Hours per Semester: 96

State Approval Code: 5007115126

Class section meeting time:

Core Components and Related College Student Learning Outcomes

This course counts as part of the academic requirements of the Panola College Core Curriculum and an Associate of Arts or Associate of Science degree. Yes No: If no, skip to Instructional Goals.

The items below marked with an X reflect the state-mandated outcomes for this course **IF this is a CORE course:**

- Critical Thinking Skills – to include creative thinking, innovation, inquiry and analysis, evaluation and syntheses of information
 - CT1: Generate and communicate ideas by combining, changing, or reapplying existing information
 - CT2: Gather and assess information relevant to a question
 - CT3: Analyze, evaluate, and synthesize information
- Communication Skills – to include effective development, interpretation, and expression of ideas through written, oral, and visual communication
 - CS1: Develop, interpret, and express ideas through written communication
 - CS2: Develop, interpret, and express ideas through oral communication
 - CS3: Develop, interpret, and express ideas through visual communication
- Empirical and Quantitative Skills – to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions
 - EQS1: Manipulate and analyze numerical data and arrive at an informed conclusion
 - EQS2: Manipulate and analyze observable facts and arrive at an informed conclusion
- Teamwork – to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

- TW1: Integrate different viewpoints as a member of a team
- TW2: Work with others to support and accomplish a shared goal
- Personal Responsibility – to include the ability to connect choices, actions, and consequences to ethical decision-making
 - PR1: Evaluate choices and actions and relate consequences to decision-making
- Social Responsibility – to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities
 - SR1: Demonstrate intercultural competence
 - SR2: Identify civic responsibility
 - SR3: Engage in regional, national, and global communities

Instructional Goals and Purposes:

The purpose of this course is to provide learners experience in hand-building and wheel-technique. Also learners will show a basic understanding of clay properties, glazing, and firing techniques.

Learning Outcomes:

After studying all materials and resources presented in the course, the student will be able to:

1. To apply the importance of form for functional and decorative pieces.
2. To demonstrate a sharpening of aesthetic judgment.
3. To use a Hand-build method as an alternative to the potter's wheel.
4. To compare the different properties of clay and clay bodies and their potential in clay work.
5. To demonstrate a competency in clay preparation for clay work.
6. To demonstrate wheel techniques.
7. To demonstrate varied decorating and glazing techniques.
8. To identify types of kilns and the steps to firing.
9. To define and apply ceramic terminology.
10. To develop and aesthetic judgment.

Course Content:

A general description of lecture/discussion topics included in this course are listed in the Learning Outcomes section of this syllabus.

Students in all sections of this course will learn the following content:

1. Learners will discuss properties of clay.
2. Learners will demonstrate the correct way to wedge clay.
3. Learners will use the pinch method to create a pot.
4. Learners will use the coil method to create a pot.

5. Learners will use the slab method of create a pot.
6. Learners will use the wheel method to create a pot.
7. Learners will use the extruder.
8. Learners will use the slab roller.
9. Learners will demonstrate a knowledge of glazing techniques-wax resist, sgraffito, slip trailing, engobes.
10. Learners will load, fire, and unload the kiln.
11. Learners will exhibit works of art.
12. Learners will participate in a Group Critique.
13. Learners will complete a vocabulary quiz.

Methods of Instruction/Course Format/Delivery:

This course is offered in a face-to-face setting. Lecture, demonstration, discussion, video, and quiz.

Major Assignments / Assessments:

The following items will be assigned and assessed during the semester and used to calculate the student's final grade.

Assignments/Assessments:

Students will be graded on the following: Quality of work without consideration to the work of others, Creativity, Completion of Assignments following rubric guidelines, Group Critique, Clean-up and Quiz.

Course Grade:

The grading scale for this course is as follows:

100-90=A, 89-80=B, 79-70=C, 69-60=D, 60 and below=F

- Projects 75%
- Quiz 10%
- Group Critique 10%

Texts, Materials, and Supplies:

- None
