

Course Syllabus

AGRI 1419 – INTRODUCTORY ANIMAL SCIENCE

Lecture and Lab

Catalog Description: Scientific animal production and the importance of livestock and meat industries. Selection, reproduction, nutrition, management, and marketing of livestock.

Lecture hours =3, Lab hours = 1

Prerequisites: None

Semester Credit Hours: 4

Lecture Hours per Week: 3

Lab Hours per Week: 1

Contact Hours per Semester: 64

State Approval Code: 01.0901.51 01

Class section meeting time:

Alternate Operations During Campus Closure: In the event of an emergency or announced campus closure due to a natural disaster or pandemic, it may be necessary for Panola College to move to altered operations. During this time, Panola College may opt to continue delivery of instruction through methods that include, but are not limited to: online learning management system (CANVAS), online conferencing, email messaging, and/or an alternate schedule. It is the responsibility of the student to monitor Panola College's website (www.panola.edu) for instructions about continuing courses remotely, CANVAS for each class for course-specific communication, and Panola College email for important general information.

Artificial Intelligence (AI) Course Policy:

Use of generated AI Permitted under some classroom circumstances with permission.

There are situations throughout the course where you may be asked to use artificial intelligence (AI) tools to explore how they can be used. Outside of those circumstances, you should not use AI tools to generate content that will end up in any student work (assignments, activities, discussion responses, etc.). In such cases for Option #2, no more than 25% of the student work should be generated by AI. Use of any AI-generated content in this course without the instructor's consent qualifies as academic dishonesty and violates Panola College's standards of academic integrity.

Core Components and Related College Student Learning Outcomes

This course counts as part of the academic requirements of the Panola College Core Curriculum and an Associate of Arts or Associate of Science degree. Yes No: If no, skip to Instructional Goals.

The items below marked with an X reflect the state-mandated outcomes for this course **IF this is a CORE course**:

Critical Thinking Skills – to include creative thinking, innovation, inquiry and analysis, evaluation and syntheses of information

CT1: Generate and communicate ideas by combining, changing, or reapplying existing information

CT2: Gather and assess information relevant to a question

CT3: Analyze, evaluate, and synthesize information

Communication Skills – to include effective development, interpretation, and expression of ideas through written, oral, and visual communication

CS1: Develop, interpret, and express ideas through written communication

CS2: Develop, interpret, and express ideas through oral communication

CS3: Develop, interpret, and express ideas through visual communication

Empirical and Quantitative Skills – to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

EQS1: Manipulate and analyze numerical data and arrive at an informed conclusion

EQS2: Manipulate and analyze observable facts and arrive at an informed conclusion

Teamwork – to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

TW1: Integrate different viewpoints as a member of a team

TW2: Work with others to support and accomplish a shared goal

Personal Responsibility – to include the ability to connect choices, actions, and consequences to ethical decision-making

PR1: Evaluate choices and actions and relate consequences to decision-making

Social Responsibility – to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities

SR1: Demonstrate intercultural competence

SR2: Identify civic responsibility

SR3: Engage in regional, national, and global communities

Instructional Goals and Purposes: The purpose of this class is to introduce students to the complex field of animal science.

Learning Outcomes:

Lecture:

After studying all materials and resources presented in the course, the student will be able to:

1. Explain the role of animal agriculture in providing benefits for mankind.
2. Identify common livestock breeds and classes.
3. Define terminology specific to animal science disciplines.

4. Demonstrate understanding of fundamental animal science principles including selection, reproduction, nutrition, and health.
5. Apply animal science principles by solving common problems.
6. Identify animal issues of interest to society, and related responsibilities.

Lab:

1. Apply scientific reasoning to investigate questions and utilize animal science tools to collect and analyze data and demonstrate methods.
2. Use critical thinking and scientific problem-solving to make informed decisions.
3. Communicate effectively the results of scientific investigations.
4. Explain the role of animal agriculture in providing benefits for mankind.
5. Identify common livestock breeds and classes.
6. Define terminology specific to animal science disciplines.
7. Demonstrate understanding of fundamental animal science principles including selection, reproduction, nutrition, and health.
8. Apply animal science principles by solving common problems.
9. Identify animal issues of interest to society, and related responsibilities.

Course Content:

Students in all sections of this course will learn the following content:

Lecture Topics

THE PLACE OF ANIMALS AND ANIMAL SCIENCE IN THE LIVES OF HUMANS

Introduction to the Animal Sciences
 The Value of Animals to Humanity
 Factors Affecting World Agricultural Structure
 Worldwide Systems of Agricultural Production

THE ANIMAL INDUSTRIES

Market Coordination in the Beef, Pork, and Poultry Industries
 Beef Cattle
 Dairy Cattle
 Poultry
 Swine
 Sheep and Goats
 Horses
 Aquaculture
 Pet and Companion Animals
 Lamoids
 Rabbits

ANIMALS AND SOCIETY

Careers and Career Preparation in the Animal Sciences
 Food Safety and Consumer Concerns
 Animal Welfare and Animal Rights
 Animals in Sustainable Agriculture

Lab Topics

THE BIOLOGICAL SCIENCES OF ANIMAL SCIENCE

Introduction to Nutrition

The Gastrointestinal Tract and Nutrition

Feedstuffs Classification

Genetics

Animal Breeding

Biotechnology and Genetic Engineering

Animal Reproduction

Lactation

Animal Behavior

Animal Health

Methods of Instruction/Course Format/Delivery: Content for the course will be delivered using lecture, textbook content and online instruction. The lecture portion of the course will be online while the lab portion will meet face-to-face on a weekly basis. Students in traditional, hybrid and internet classes will have access to courses via Canvas.

Assessment:

The following items will be assigned during the semester and used to calculate the student's final grade:

- **Quizzes and Assignments**

- Students will read the required material and complete quizzes and assignments over the content. The ability to makeup late quizzes and assignments will be determined by the instructor for a reduced score.

- **Tests**

- In the online section the midterm and the final will be proctored.

- **Final Exam**

- The Final Exam will be cumulative. In the online section the Final will be proctored.

Course Grade:

The grading scale for this course is as follows:

- Quizzes and Assignments – 25%
- Tests – 50%
- Final Exam – 25%

Lecture 60% + Lab 40% = Final Grade 100%

Grading Scale A=90-100, B=80-89, C=70-79, D=60-69, F=69 and below

Grading Notes:

Late Work: All listed assignments are due according to the due date provided in Canvas and on the course calendar if you do not complete the assignments on time a 10% per day penalty will automatically be applied to all assignments. If you have missed an assignment due to an approved class absence please contact your instructor for further instructions.

Late work for an unexcused absence: There will be a 10 point reduction in the score if the assignment is turned in after the listed due date and time. (Example: The assignment is due at 1 pm and you submit it at 4 pm you will receive a 10 point deduction from the original score.) There will also be a 10 point deduction for everyday the assignment is late. (Example: If you turn in the assignment 3 days late you will receive a 30 point deduction from your original score.)

Missed Exams: Missed exams due to legitimate reasons should be taken prior to the reporting of a midterm or final grade as applicable. It is the responsibility of the student to reschedule the makeup with the instructor. The Instructor reserves the right to change the test format of any makeup. Instructors are not required to issue makeup work for an unexcused class absence Instructor also reserves the right to give full or partial credit for any makeup work that is allowed and that resulted from an unexcused absence.

Missed Quizzes: Missed quizzes due to legitimate reasons should be rescheduled within one week of the scheduled quiz or a date assigned by the Instructor. It is the responsibility of the student to reschedule makeup quizzes. The Instructor reserves the right to change the test format of the makeup quiz. The instructor is not required to make up work for unexcused class absences. The instructor reserves the right to give full or partial credit for any makeup work that is allowed and that resulted from an unexcused absence.

NO MAKEUP WORK WILL BE ACCEPTED DURING FINALS WEEK.

Attendance: Attendance is based on the student missing no more than 10% out of the semester without a valid excuse. After the 10%, the instructor may withdraw the student at their discretion. Any student thirty or more minutes late will be counted absent. Students that leave before class is dismissed will be counted absent. The Instructor reserves the right to dock points for any missed class without a legitimate excuse. Students that leave before class is dismissed will be counted absent.

You will also be expected to show up to class on time each day. After accumulating three tardies, each tardy will count as an unexcused absence.

Excused absences are those due to a pre-approved school sponsored trip, a death in the family (you will need a funeral pamphlet) or a sickness (in which case a doctor's note is required).

For face-to-face classes that meet once a week:

Attendance will be mandatory. Roll will be taken at the beginning of every class. At the end of the semester, any student who has **two unexcused absences** will be penalized **one letter grade**. If a student accumulates **three or more unexcused absences**, the grade for the class will be an automatic **"F"**.

Plagiarism: Plagiarism shall be defined as appropriating, buying, receiving as a gift or obtaining by any other means another person's work and the unacknowledged submission or incorporation of it in one's own written work. Plagiarism in this class consists of copying another student's files and using them as your own, copying another student's projects and using it as your own, downloading a completed file and using it as your own, and/or having someone complete the work for you and using it as your own. Plagiarism will not be tolerated and will result in an automatic "F" for the course.

All papers submitted to Canvas will be scanned with [turnitin.com](https://www.turnitin.com) and the instructor reserves the right to dock points based on the results.

Cheating: Cheating on a test shall include:

- a. Copying from another student's test
- b. Using test materials not authorized by the person administering the test
- c. Collaborating with or seeking aid from another student during a test without permission from the test administrator
- d. Knowingly using, buying, selling, stealing, or soliciting, in whole or in part, the contents of an unadministered test.
- e. The unauthorized transporting or removal, in whole or in part, of the contents of the unadministered test.
- f. Substituting for another student, or permitting another student to substitute for one's self, to take a test.
- g. Bribing another person to obtain an unadministered test or information about an unadministered test absolutely no cheating is tolerated.
- h. If a student is observed cheating they will be sent home immediately counted absent and given a zero on the assignment they were cheating on.

Cheating in this course will not be tolerated and can result in a "F" for the course.

Class Conduct: All cell phones should be turned off in all classes. If you must receive a call notify your instructor and step out of the classroom. No cell phones are allowed during testing. The use of cell phones (texting, calls, internet, ect.) during class will result in 5 points being taken from the students' Test grade for every offense.

No disruptive behavior is allowed in class; if a student is being disruptive as determined by the instructor one warning will be given. If the behavior persists, the student will be sent home and counted absent. Asking of questions and discussion of relevant information in and outside class is highly encouraged; however, talking to neighbors, texting, sleeping, foul language or studying for other courses during class time will not be tolerated.

Some mandatory meetings outside of class days and time may be required to attend for credit. Valid excuses must be submitted with proof via email to your professor to avoid grade penalties.

A student that chooses to NOT finish the course must complete the withdrawal procedure in the Student Success office in order to receive a —W. Otherwise, the student will receive a grade at the end of the semester commensurate with the work completed.

Students needing special classroom or testing accommodations because of physical or learning disabilities must contact the Student Success office before these services will be made available in the classroom.

Texts, Materials, and Supplies:

Textbook:

Damron, W. S. (2018). *Introduction to animal science: Global, biological, social, and industry perspectives* (6th ed.). New York, NY: Pearson.
ISBN-13: 978-0-13-443605-0

- You will need to purchase the textbook as everything we do (lectures, exams, quizzes, assignments, etc.) will come directly from the book.

Required Readings:

- The Textbook
- Other readings and videos as posted on Canvas

Other:

- Courses conducted via video conferencing may be recorded and shared for instructional purposes by the instructor.

- For current texts and materials, use the following link to access bookstore listings:
<https://www.panolacollegestore.com>
- For testing services, use the following link:
<https://www.panola.edu/student-services/student-support/academic-testing-center>
- If any student in this class has special classroom or testing needs because of a physical learning or emotional condition, please contact the ADA Student Coordinator in Support Services located in the Charles C. Matthews Student Center or go to
<https://www.panola.edu/student-services/student-support/disability-support-services> for more information.
- Panola College welcomes pregnant and parenting students as a part of the student body. This institution is committed to providing support and adaptations for a successful educational experience for pregnant and parenting students. Students experiencing a need for accommodations related to pregnancy or parenting will find a Pregnancy and Parenting Accommodations Request form in The Pathfinder or may request the form from the course instructor.
- Withdrawing from a course is the student's responsibility. Students who do not attend class and who do not withdraw will receive the grade earned for the course.
- Student Handbook, The Pathfinder: <https://www.panola.edu/> (located at the bottom under students)
