

## **Course Syllabus**

### **RNSG 1163 - Clinical – Registered Nursing, Transition**

**Catalog Description:** A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional.

**Lecture hours = 0, Lab hours = 8**

**Prerequisites:** Admission to the nursing program or administrative approval

**Co-requisites for LVN-RN Hybrid Transition Program:** RNSG 1324, RNSG 1118, RNSG 1128

**Semester Credit Hours: 1**

**Lecture Hours per Week: 0**

**Lab Hours per Week: 8**

**Contact Hours per Semester: 64**

**State Approval Code:** CIP 51.3801

**See Canvas course for meeting days and times.**

**Alternate Operations During Campus Closure:** In the event of an emergency or announced campus closure due to a natural disaster or pandemic, it may be necessary for Panola College to move to altered operations. During this time, Panola College may opt to continue delivery of instruction through methods that include, but are not limited to: online learning management system (CANVAS), online conferencing, email messaging, and/or an alternate schedule. It is the responsibility of the student to monitor Panola College's website ([www.panola.edu](http://www.panola.edu)) for instructions about continuing courses remotely, CANVAS for each class for course-specific communication, and Panola College email for important general information.

**Instructional Goals and Purposes:** The purpose of this course is to apply specialized nursing theory, skills, and concepts under direct supervision.

#### **Learning Outcomes:**

1. Apply nursing theory, concepts, and skills involving specialized materials, tools, equipment, procedures, regulations, laws, and interactions within and among political, economic, environmental, social and legal systems associated with the occupation and the business/industry.
2. Demonstrate legal and ethical behavior, safety practices, interpersonal and teamwork skills, and appropriate written and verbal communication skills using the terminology of the occupation and the business/industry.

**Specific Course Objectives and Evaluation (includes SCANS):**

After studying all materials and resources presented in the course, the student will be able to:

**Course Content:**

A general description of lecture/discussion topics included in this course are listed in the Learning Outcomes / Specific Course Objectives sections of this syllabus.

**Students in all sections of this course will be required to do the following:**

1. Students are accountable to and must comply with all policies outlined in the Panola College ADN Handbook and student nursing practice as defined by the Texas Board of Nursing Nurse Practice Act and the American Nurses Association (ANA) code of ethics.
2. Bring required equipment for clinical (please see Panola ADN Handbook, section 4.5.f) to each assigned clinical.
3. Bring all needed resources to clinical for completion of learning activities.
4. Refer to the Panola ADN Handbook "Attendance/Absences" policy (Panola ADN Handbook section 4.1) for attendance requirements. All hours for this course will be viewed as required clinical hours for the semester and ADN program.
5. Be self-directed in preparation and in participation in clinical learning activities. The student is required to complete all assigned reading, assigned audiovisuals, and assigned computer instruction prior to the assigned clinical class.
6. Take the initiative to schedule with the instructor any additional practice needed in the lab.
7. Complete all assignments associated with clinical experiences as instructed by the clinical professor. All assignments must demonstrate college-level skills. References must be documented using American Psychological Association (APA) guidelines.
8. Due dates and instructions for all assignments will be accessed through the CANVAS course.
9. Students are required to achieve 100% pass rate on the dosage calculation exam to pass this course. Please see Panola College ADN Handbook section 5.5.
10. Students are required to complete a mid-term and final self-evaluation based on the LVN-RN Transition Semester learning outcomes.
11. Students will be evaluated at midterm and at the end of the semester by the course professor using the LVN to RN Transition Semester Clinical Evaluation Tool. See grading criteria located at the end of the clinical evaluation tool.
12. In the event of an emergency or announced campus closure due to a natural disaster or pandemic and instruction changes to follow alternate operations, students will be required to join and participate in ZOOM classes at scheduled clinical time for the semester. Students will complete and submit all online assignments as instructed through the Canvas course.

**Course Content:**

A general description of lecture/discussion topics included in this course are listed in the Learning Objectives / Specific Course Objectives sections of this syllabus.

**Methods of Instruction/Course Format/Delivery:**

This course is offered in a clinical setting.

**Major Assignments / Assessments:**

The following items will be assigned and assessed during the semester and used to calculate the student's final grade.

**Assignments**

- Assignments are made by the instructor of record. Assignments made will be used in part for clinical evaluation. Assignment instructions and submissions will be located on the CANVAS course.

**Assessment(s):**

- The instructor of record will evaluate each student using the clinical evaluation tool for this course. Data for evaluation include but are not limited to written assignments, observation, interview, discussions, participation, observed behavior, attitude, professionalism, and input from nursing preceptors and the healthcare team working with the student at clinical. Clinical evaluations are recorded and maintained on Examsoft. Students will review clinical evaluations and feedback on evaluations by logging into Examsoft using their assigned log in and password.

**Course Grade:**

The grading scale for this course is as follows:

- Assessments (Clinical evaluation) – 85%
- Assignments – 15%

**Clinical assignments as well as clinical observation and interactions will be used by the clinical instructor to complete the clinical evaluation tool. A student MUST earn a course grade of 75 or greater to successfully pass the course, and a student must earn an evaluation of “2” or higher on critical elements of the evaluation tool in order to pass the course.**

## SCANS CRITERIA

- 1) **Foundation skills are defined in three areas: basic skills, thinking skills, and personal qualities.**
  - a) **Basic Skills:** A worker must read, write, perform arithmetic and mathematical operations, listen, and speak effectively. These skills include:
    - i) Reading: locate, understand, and interpret written information in prose and in documents such as manuals, graphs, and schedules.
    - ii) Writing: communicate thoughts, ideas, information, and messages in writing, and create documents such as letters, directions, manuals, reports, graphs, and flow charts.
    - iii) Arithmetic and Mathematical Operations: perform basic computations and approach practical problems by choosing appropriately from a variety of mathematical techniques.
    - iv) Listening: receive, attend to, interpret, and respond to verbal messages and other cues.
    - v) Speaking: Organize ideas and communicate orally.
  - b) **Thinking Skills:** A worker must think creatively, make decisions, solve problems, visualize, know how to learn, and reason effectively. These skills include:
    - i) Creative Thinking: generate new ideas.
    - ii) Decision Making: specify goals and constraints, generate alternatives, consider risks, and evaluate and choose the best alternative.
    - iii) Problem Solving: recognize problems and devise and implement plan of action.
    - iv) Visualize ("Seeing Things in the Mind's Eye"): organize and process symbols, pictures, graphs, objects, and other information.
    - v) Knowing How to Learn: use efficient learning techniques to acquire and apply new knowledge and skills.
    - vi) Reasoning: discover a rule or principle underlying the relationship between two or more objects and apply it when solving a problem.
  - c) **Personal Qualities:** A worker must display responsibility, self-esteem, sociability, self-management, integrity, and honesty.
    - i) Responsibility: exert a high level of effort and persevere toward goal attainment.
    - ii) Self-Esteem: believe in one's own self-worth and maintain a positive view of oneself.
    - iii) Sociability: demonstrate understanding, friendliness, adaptability, empathy, and politeness in group settings.
    - iv) Self-Management: assess oneself accurately, set personal goals, monitor progress, and exhibit self-control.
    - v) Integrity and Honesty: choose ethical courses of action.
- 2) **Workplace competencies are defined in five areas: resources, interpersonal skills, information, systems, and technology.**
  - a) **Resources:** A worker must identify, organize, plan, and allocate resources effectively.
    - i) Time: select goal-relevant activities, rank them, allocate time, and prepare and follow schedules.
    - ii) Money: Use or prepare budgets, make forecasts, keep records, and make adjustments to meet objectives.
    - iii) Material and Facilities: Acquire, store, allocate, and use materials or space efficiently. Examples: construct a decision time line chart; use computer software to plan a project; prepare a budget; conduct a cost/benefits analysis; design an RFP process; write a job description; develop a staffing plan.
  - b) **Interpersonal Skills:** A worker must work with others effectively.
    - i) Participate as a Member of a Team: contribute to group effort.
    - ii) Teach Others New Skills.
    - iii) Serve Clients/Customers: work to satisfy customer's expectations.

- iv) **Exercise Leadership:** communicate ideas to justify position, persuade and convince others, responsibly challenge existing procedures and policies.
- v) **Negotiate:** work toward agreements involving exchange of resources, resolve divergent interests.
- vi) **Work with Diversity:** work well with men and women from diverse backgrounds.

Examples: collaborate with a group member to solve a problem; work through a group conflict situation, train a colleague; deal with a dissatisfied customer in person; select and use appropriate leadership styles; use effective delegation techniques; conduct an individual or team negotiation; demonstrate an understanding of how people from different cultural backgrounds might behave in various situations.

- c) **Information:** A worker must be able to acquire and use information.

- i) **Acquire and Evaluate Information.**
- ii) **Organize and Maintain Information.**
- iii) **Interpret and Communicate Information.**
- iv) **Use Computers to Process Information.**

Examples: research and collect data from various sources; develop a form to collect data; develop an inventory record-keeping system; produce a report using graphics; make an oral presentation using various media; use on-line computer data bases to research a report; use a computer spreadsheet to develop a budget.

- d) **Systems:** A worker must understand complex interrelationships.

- i) **Understand Systems:** know how social, organizational, and technological systems work and operate effectively with them.
- ii) **Monitor and Correct Performance:** distinguish trends, predict impacts on system operations, diagnose deviations in systems' performance and correct malfunctions.
- iii) **Improve or Design Systems:** suggest modifications to existing systems and develop new or alternative systems to improve performance.

Examples: draw and interpret an organizational chart; develop a monitoring process; choose a situation needing improvement, break it down, examine it, propose an improvement, and implement it.

- e) **Technology:** A worker must be able to work with a variety of technologies.

- i) **Select Technology:** choose procedures, tools or equipment including computers and related technologies.
- ii) **Apply Technologies to Task:** understand overall intent and proper procedures for setup and operation of equipment.
- iii) **Maintain and Troubleshoot Equipment:** Prevent, identify, or solve problems with equipment, including computers and other technologies.

Examples: read equipment descriptions and technical specifications to select equipment to meet needs; set up and assemble appropriate equipment from instructions; read and follow directions for troubleshooting and repairing equipment.

## Associate Degree Nursing

### Student Acknowledgment

I have read the Panola College Associate Degree Nursing program syllabus for RNSG 1163 LVN-RN Transition Clinical. The items in the syllabus have been explained to me. I understand that it is my responsibility to seek any additional clarification that I may need from the instructor.

I will comply with the syllabus requirements as delineated. In addition, I will comply with the current ADN Student Handbook as found on the ADN web page. It is my understanding that this form will become part of my permanent file.
